

# Getting it on

## IN Salford

World Aids Day

1 December

**How do you know that the person  
you're taking home isn't HIV positive?**

Last year, 40% of Salford's new  
HIV cases were heterosexual

Between 2001 and 2003, Salford's  
new HIV cases increased by 187%

Almost all new cases of HIV are  
infected through sex

**Using a condom can save your life**
