Working Neighbourhood Teams in Salford: From policy to joined up reality for people

“There should be a stronger emphasis on interventions aimed at developing the ability of people to get into and to stay in work”

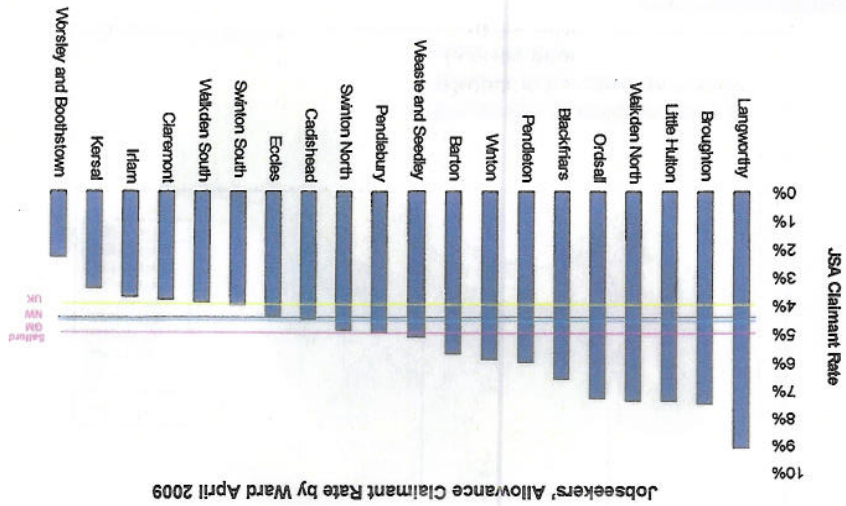

“Key delivery agents will need to work together at neighbourhood level to tackle worklessness....”

“Building on existing neighbourhood management structures.....”

JSA growth is also a major concern for us – not only in our traditional target areas

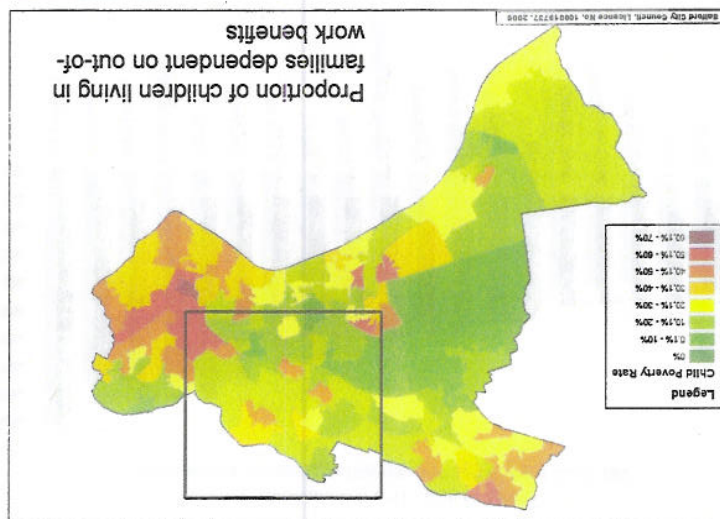

Partners IN Salford

Our worst affected areas: we need scale and flexibility!

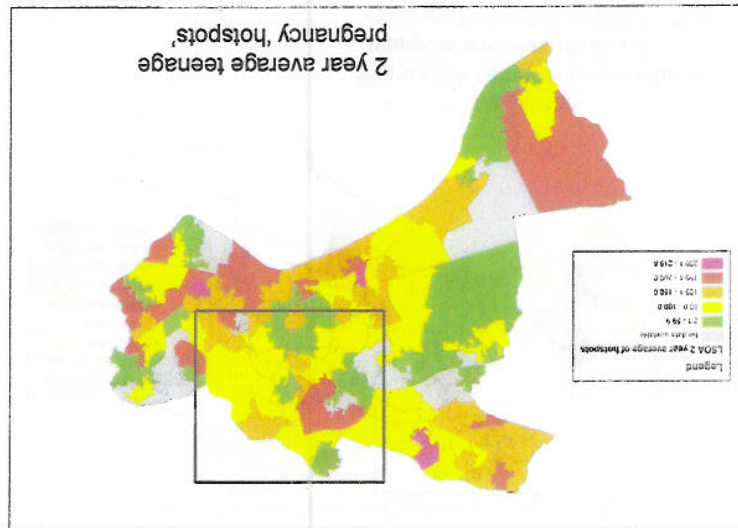

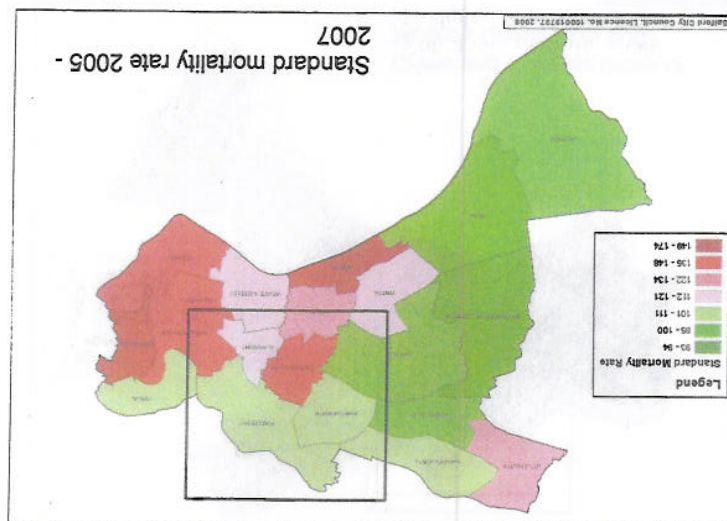

Partners IN Salford

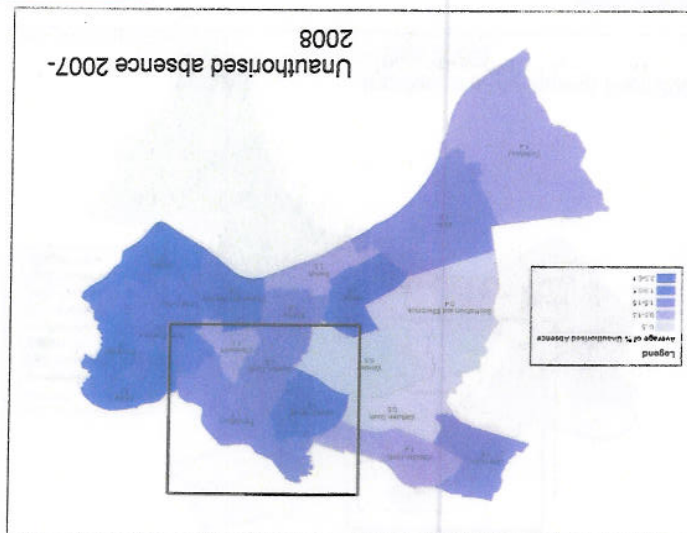

All public services in Salford face their greatest challenges in these areas: Child Poverty

Teenage Pregnancy

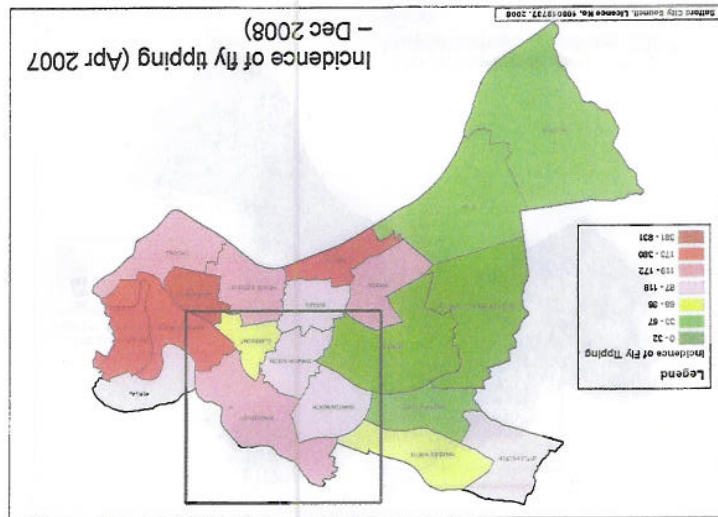

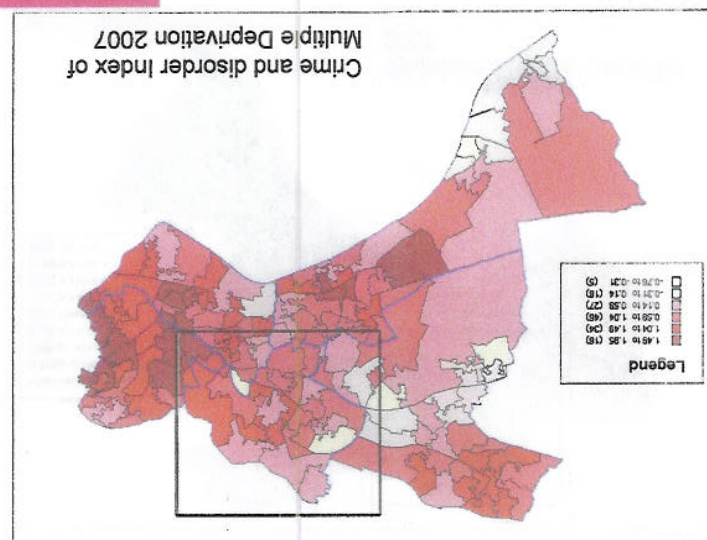

Health Inequalities

School Attendance

Environmental Conditions

Crime & Disorder

From concept to reality: partners on board – a high level of commitment

Salford City Council

Local service managers are now 'one team' in three pilot areas, with specific plans for each

Key issues for us

- Tackling the issues around the recession and Job Seekers Allowance whilst helping the furthest away from jobs because of more complex needs
- Managing stakeholders, maintaining their (new) belief that this can work
- A tighter financial climate creates an impetus for joining up – good for us
- Holding our nerve!

Swinton Community Committee's Role

- Consultation – you know your area well
- Once the working neighbourhood team is up and running – how are we doing?
- Valuable link to the local community – word of mouth
